

Add a **search button** to your file room

Scan123 is the secure document management solution that enables all departments in your dealership to instantly find important files with the click of a button. By scanning paper files into the cloud, you can secure your business-critical documents, free up space in your dealership, and save both time and money.

 **Retrieve documents instantly**
Search by RO#, stock#, deal#, VIN, customer name, and much more.

 **Simplify your filing system**
Combine paper and digital files from every department into a single location.

 **Secure customer information**
Your encrypted documents are protected against theft, hacking, flood, fire, and loss.

 **Eliminate your file room**
Reclaim the space used for filing cabinets and banker boxes to store more parts or add office space.

 **Connect to your DMS**
Scan123 works with all major DMS providers to automatically label your files and eliminate data entry.

 **Streamline dealership audits**
Be prepared for an audit with all your documents ready to go.

Scan all of your important documents

Use Scan123 to scan and organize all of your important documents. Contracts, ROs, technician notes, receipts, wet signatures, you name it, we can handle it. All files are scanned as full color, high resolution PDFs and can act as a legal document.

Unlimited lifetime support

Have questions? No problem. Unlimited lifetime support from our US-based support team is included as part of every scanning plan. Call or email us anytime and we'll work with you to resolve any issues you are experiencing.

Have a huge backlog of paper documents? Scan 8x faster with VelocityFile

VelocityFile is a simple, powerful upgrade for Scan123 that lets you scan documents up to 8x faster than traditional scanning. VelocityFile also names and files documents with no data entry required, and works with your DMS to automatically assign key information like RO#, VIN and customer name.

The average dealership saves **\$1,500 per month** by switching to Scan123

I honestly don't know how we operated before Scan123. We generate about 10,000 documents per month. Before Scan123 we stored them all in filing cabinets which was a total nightmare. Now we can scan every document front and back, with a perfect image, in just a few seconds. Each scan is a legal copy complete with all the necessary notes and signatures. The best part is we can search for any document instantly.
